FOR IMMEDIATE RELEASE

MICROPAC GOES TO COLLEGE

GARLAND, TX (07/6/2009) -Micropac Industries, Inc. congratulates the Dallas County Community College District on the opening of the Richland College Garland Campus on June 30.

The new facility, located on the corner of Walnut Street and Glenbrook Drive, will serve as a location for area companies, organizations, and individuals to obtain highly specialized corporate and workforce training and also functions as an educational gateway for student intake and outreach services for area residents and businesses to access main campus college credit programs and courses at three Dallas County Community College District (DCCCD) colleges.

“We are eager for this first facility on Richland’s new 21-acre Garland Campus to serve as a nearby gateway to Garland-area residents to learn more about the many educational opportunities the DCCCD has to offer, especially at the main campuses of Richland, Eastfield, and El Centro colleges,” said Steve Mittelstet, Richland’s president for the past 30 years.

In the main gallery, The Garland Chamber of Commerce has set up four display booths to spotlight Garland Businesses, and Micropac is proud to be chosen as one of the inaugural displays. The displays will be rotated out on about a 4-month cycle, so please drop by and see how Micropac is represented to your community.
